Fax: +66-2721-3515

SAFETY DATA SHEET

Company Identification

Thep Watana Co., Ltd. Address: 382 Bangpoo Industrial Estate.

Sukhumvit Road, Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66(0)-2721-3510; Fax: +66(0)-2721-3515

1. CHEMICAL IDENTIFICATION

Product Identification

Product name: Amitraz 20% W/V EC

Product use: Insecticide

Relevant identified uses of the substance/mixture and uses advised against:

Used in agricultural insecticide.

2. HAZARD IDENTIFICATION

Adverse Human Health Effects

Single ingestion,

Swallowing can cause nausea, vomiting and central nervous system depression caused by the solvent in this product. If patient shows sign of central nervous system depression (like those of drunkenness) there is a greater chance of the patient breathing in vomit and causing damage to the lungs. Breathing in vomit may lead to aspiration pneumonia (inflammation of the lung).

Short-term Eye contact,

This product may be irritating to the eyes.

Short-term Skin contact,

This product may be irritating to the skin. Product will have a degreasing action on the skin.

Repeated or prolonged exposure may lead to irritant contact dermatitis.

Short-term Inhalation,

Inhalation of mists or sprays may produce respiratory irritation. Breathing in vapours may result in headaches, dizziness and possible nausea. Breathing high concentrations can produce central nervous system depression, which can lead to loss of coordination, impaired judgement, and in circumstances of prolonged exposure, unconsciousness.

Phone: +66-2721-3510

Fax: +66-2721-3515

3. COMPOSITION/INFORMATION ON INGREDIENT

Chemical name: *N'*-(2,4-dimethylphenyl)-*N*-[(2,4-dimethylphenyl)iminomethyl]-*N'*-methylmethanimidamide

Common name: Amitraz (proposed to ISO)

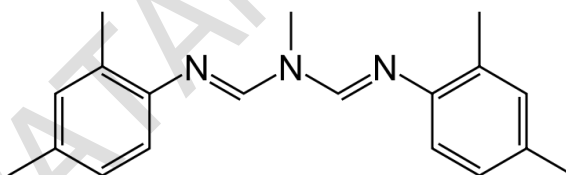

Chemical family: Amidine

Ingredients and composition:

Component	CAS No.	g/L
Active ingredient		
- Amitraz	33089-61-1	200
Solvent		
- Hydrocarbon solvent	64742-94-5	590
- Naphthalene (in hydrocarbon solvent)	91-20-3	17 - 36
- N-methyl-2-pyrrolidone	872-50-4	50
Emulsifier		
- Emulsifiers T-60	Non hazardous	105

Formula: $C_{13}H_{23}N_3$

Molecular weight: 293.414 g/mol

4. FIRST AID MEASURES

Description of first aid measures

Scheduled Poisons:

Poisons Information Centers in each State capital city can provide additional assistance for scheduled poisons.

In case of skin contact:

Remove contaminated clothing. Wash affected area immediately with soap and water. Seek medical attention if required.

In case of eyes contact:

Flush eye immediately with large amounts of water or normal saline, occasionally lifting eyelids, until no evidence of chemical remains. Seek medical attention if eye irritation persists.

Thep Watana Co., Ltd.

382 Bangpoo Industrial Estate Sukhumvit Rd., Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66-2721-3510

Fax: +66-2721-3515

In case of Ingestion:

If vomiting occurs, keep head lower than hips to help prevent aspiration. Seek medical attention if required.

In case of Inhalation:

Inhalation of this product is a risk. In this event remove from exposure and perform artificial respiration if necessary.

Antidote:

There is no specific antidote for Amitraz. Apply standard decontamination procedures and symptomatic treatment considering possible solvent effects as described below.

5. FIRE FIGHTING MEASURES

Flammability (explosive) limits (UFL): 7.0 Vol. % in air – hydrocarbon solvent

Fire point: 82 °C

Extinguishing Media:

Sprayed water jet, foam, dry powder, CO₂, sand

Fire and Explosion hazards:

Combustible products. The product has a flash point of > 95 °C

Hazardous Combustion Products:

Thermal decomposition products include hydrogen cyanide, carbon monoxide, and nitrogen oxides.

Fire Fighting Equipment:

Fight fire in the early stages if safe to do so. Wear respiratory protection.

In well-ventilated areas wear full-face mask with a combination filter. (Offers no protection from carbon monoxide)

In enclosed premises: respirator with independent air supply.

6. ACCIDENTAL RELEASE MEASURES (SPILLAGE)

Personal Precautions:

Use any personal protective equipment listed in Chapter 8.

Accidental Release:

Prevent spillage from spreading or entering soil, waterways and drains.

Take up with absorbent material such as sawdust, pest or chemical binder. Fill material along with any contaminated soil into salable containers. Clean affected area with an aqueous detergent and a small amount of water. Absorb this with hydrated lime and place in a salable container.

Spread hydrated lime over the affected area.

Thep Watana Co., Ltd.

382 Bangpoo Industrial Estate Sukhumvit Rd., Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66-2721-3510

Fax: +66-2721-3515

7. HANDLING AND STORAGE

Good industrial practice in housekeeping and personal hygiene should be followed.

Safe Handling:

Pour the product using a funnel or other equipment to avoid splashing and gugging.

Suitable Container Materials:

HDPE, LDPE.

Storage Conditions:

- Keep out of reach of children.
- Keep away from food, drink and animal feeding stuffs.
- To maintain product quality, store below 30 °C.
- Keep away from heat or moisture.
- This material is a Schedule 6 poison and must be stored, handled and used in accordance with the relevant regulations.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Personal Protective Equipment

Eyes Protection:

May irritate the eyes. Avoid contact with eyes and skin. DO NOT inhale spray mist. If splash in eyes, wash out immediately with water. Wear a face shield while handling the concentrate.

Skin Protection:

May irritate the skin. When preparing dip or spray, using prepared dip or spray, wear cotton overalls buttoned to the neck and wrist, washable hat, elbow-length PVC gloves, and face shield. If plash on skin, immediately wash area with soap and water.

Respiratory Protection:

No respirator is required under normal conditions of use.

Protective Material Types:

PVC, rubber

General Advice:

After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield and contaminated clothing. Product is poisonous if swallowed.

Phone: +66-2721-3510

Fax: +66-2721-3515

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical stage:	Liquid
Color:	Clear amber
Odor:	Characteristic aromatic hydrocarbon
pH:	9.0 – 11.0
Boiling point:	179 – 213 °C – hydrocarbon solvent
Melting/ Freezing Point:	None
Flash point:	63 °C (Pensky-Martens Closed Cup)
Vapor pressure:	0.3 kPa at 38 °C – hydrocarbon solvent
Vapor density:	> 1.00 – hydrocarbon solvent
Stability:	Emulsifies in water

10. STABILITY AND REACTIVITY

Chemical Stability:

Product is chemically stable.

Condition to avoid:

Avoid oxidizing agents.

Incompatible materials:

None

Hazardous Decomposition

Thermal decomposition products include hydrogen cyanide, carbon monoxide, and nitrogen oxides.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity LOW TOXICITY

LD50 (oral):	1,250 mg/kg (rat)
LD50 (dermal):	> 2,000 mg/kg (rat)
LC50 (4h) (inhalation):	4.01 mg/L (rat)

Irritant properties

Skin irritation:	Irritating in rabbit
Eye irritation:	Irritating in rabbit

Thep Watana Co., Ltd.

382 Bangpoo Industrial Estate Sukhumvit Rd., Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66-2721-3510

Fax: +66-2721-3515

12. ECOLOGICAL INFORMATION

Birds – Acute toxicity: SLIGHTLY TOXIC

Bobwhite quail,

LD50 (Oral): 778 mg/kg

Japanese quail,

LC50 (8 days): 1,800 mg/kg

Mallard ducks,

LC50 (8 days): > 7,000 mg/kg (dietary)

Amitraz may affect reproduction in birds. The avian reproduction (NOEL) is less than 40 ppm.

Arthropod – Acute toxicity:

Honey bee,

LD50 (ingestion): 12 µg/bee

LD50 (directly spray): 3.6 mg/L

13. DISPOSAL CONSIDERATIONS

After Intended, use disposal of unwanted spraywash should be into a pit of adequate size on level ground and away from watercourses, drains, dams, and tree roots.

DO NOT dispose of undiluted chemicals on site. If not available bury containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots. Empty containers and product should not be burnt.

14. TRANSPORT INFORMATION

The data provided in this section is for information only. Please apply the appropriate regulations to properly classify your shipment for transportation.

UN No: 3082

Dangerous Goods Class: 9

Packaging Group: III

Marine pollutant: Yes

ADG Code: UN3082, FLAMMABLE LIQUID, N. O. S (AMITRAZ EC), 9, III

15. REGULATORY INFORMATION

Risk phrases:

R22: Harmful if swallowed.

R65: May cause lung damage if swallowed.

Thep Watana Co., Ltd.

382 Bangpoo Industrial Estate Sukhumvit Rd., Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66-2721-3510

Fax: +66-2721-3515

Safety phrases:

S23.2: Do not breathe vapor

S24: Avoid contact with skin.

S62 If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

16. OTHER INFORMATION

Safety Data Sheet (MSDS) are based on the current state of scientific and technical knowledge at the date indicated on the present MSDS and are presented in good faith and believed to be correct. This information applies to the product as such. In case of new formulations or mixes, it is necessary to ascertain that a new danger will not appear. It is the responsibility of persons on receipt of this MSDS to ensure that the information contained herein is properly read and understood by all people who may use, handle, dispose or in any way come in contact with the product. If the recipient subsequently produce formulations containing this product, it is the recipient sole subsequently to ensure the transfer of all relevant information from this MSDS to their own MSDS.
