

MATERIAL SAFETY DATA SHEET

Section 1 - Chemical Product and Company Identification

MSDS Name: Chlorothalonil 500 g/l + Azoxystrobin 60 g/l SC

Chemical name: **Chlorothalonil:** 2,4,5,6-tetrachloroisophthalonitrile;
Azoxystrobin: Methyl (E)-2-{2-[6-(2-cyanophenoxy)
pyrimidin-4-yloxy]phenyl} -3-methoxyacrylate)

Company Identification:

Jiangyin Suli Chemical Co., Ltd.

No.7, Runhua Road, Ligang Town, Jiangyin City, Jiangsu Province, 214444,
P.R.China

Section 2 - Hazards Identification

EMERGENCY OVERVIEW: Off-white viscous suspension. May eye irritation.
Emergency personnel should wear a self contained breathing apparatus because
noxious fumes are produced under fire conditions.

Potential Health Effects: This section includes possible adverse effects which could
occur if this material is not handled in the recommended manner.

Eye: May cause eye irritation.

Skin: May cause skin irritation.

Ingestion: Harmful if overexposed. Symptoms of overexposure include bleeding from
the nose, tremors and convulsions.

Section 3 - Composition, Information on Ingredients

Chemical Name	CAS#	Concentration
Chlorothalonil	1897-45-6	507.6 g/l
Azoxystrobin	131860-33-8	61.2 g/l
Sodium dodecyl benzene sulfonate	25155-30-0	24 g/l max
Condensation of alkyl naphthalene sulfonate	NA	36 g/l max
Magnesium aluminosilicate	71205-22-6	1.2 g/l max
Xanthan gum	11138-66-2	1.0 g/l max
1,2-Propanediol	57-55-6	24 g/l max

Butyl paraben	94-26-8	3.6 g/l max
Organic silicon defoamer	NA	4.8 g/l max
Water	7732-18-5	Balance

Section 4 - First Aid Measures

Skin contact: Remove contaminated clothing. Wash contaminated skin with soapy water. Wash clothing thoroughly before re-use.

Eye contact: Rinse eye(s) with clean running water for 15 mins. Get medical attention.

Ingestion: Rinse mouth. Give water to drink if patient is conscious. DO NOT induce vomiting. If vomiting occurs ensure patient can breathe, then give water to drink. Get medical attention.

Advice to doctor: No specific antidote is known. Treat symptomatically.

Section 5 - Fire Fighting Measures

Flammability: Non-flammable liquid

Extinguishing media: Small fires: Carbon dioxide, dry chemical powders, regular foam and water spray. Large fires: Water spray, fog or regular foam. Move containers from fire area if you can do it without risk. Dike fire control water for later disposal; do not scatter the material. Do not use straight streams.

Special hazards: Use water spray to cool fire-exposed containers. Should the chemical be involved in a general fire, ensure chemical protective clothing is used. It can produce toxic fumes of carbon oxides and nitrogen oxides.

Protective clothing: Wear suitable personal protective equipment including approved respiratory protection.

Section 6 - Accidental Release Measures

Personal precautions: Chemical protective clothing usage is advised, i.e. wear neoprene gloves, cotton overalls and safety goggles.

Environmental precautions: Do not allow spill to contaminate water supplies.

Spills: In the event of a major spill, prevent spillage from entering drains or water courses. Wear full protective clothing including eye/face protection. Stop leak if safe to do so, and contain spill. Recover the product by sweeping up or vacuuming without raising dust. Collect in sealed open top containers for disposal. Final clean-up with degreasing agent or detergent is advised. Launder protective clothing before storage or re-use.

Spill/Leak Procedures: Notify safety personnel, isolate and ventilate area, deny entry, and stay upwind. Shut off all ignition sources

Section 7 - Handling and Storage

Handling: Relatively safe to handle. Handle all crop protection chemicals with care and caution. Do not eat, drink, smoke or go to the toilet with pesticide-contaminated hands. Always wash hands thoroughly after handling pesticides or waste.

Storage: Do not store near heat. Store in a dry, cool, well-ventilated warehouse in well-labeled containers. Not to be stored next to foodstuffs and water supplies. Keep away from children and animals. Local regulations should be complied with.

Section 8 - Exposure Controls, Personal Protection

Engineering control measures: It is essential to provide adequate ventilation. Ensure that control systems are properly designed and maintained. Comply with occupational safety, environmental, fire, and other applicable regulations. If engineering controls and work practices are not effective in controlling exposure to this material, then wear suitable personal protective equipment including approved respiratory protection.

Occupational exposure limits: Not established

Respirator: An approved respirator suitable for protection from dusts and mists of pesticides is adequate. Limitations of respirator use specified by the approving agency and the manufacturer must be observed.

Clothing: Employee must wear appropriate protective (impervious) clothing and equipment to prevent repeated or prolonged skin contact with this substance.

Gloves: Employee must wear appropriate synthetic protective gloves to prevent contact with this substance.

Eye protection: The use of safety goggles is recommended.

Section 9 - Physical and Chemical Properties

Appearance: Off-white viscous suspension

Flammability: Not flammable.

Explosive properties: Not explosive.

Oxidising properties: No oxidising properties.

pH: 5.0~8.5

Solubility: Miscible with water

Viscosity: Not available

Relative density: Not available

Stability: Stable.

Boiling point: Not available

Molecular Formula: Chlorothalonil: $C_8Cl_4N_2$; Azoxystrobin: $C_{22}H_{17}N_3O_5$

Molecular Weight: Chlorothalonil: 265.91; Azoxystrobin: 403.39

Section 10 - Stability and Reactivity

Storage stability: Stable under normal storage in sealed container.

Incompatibility: None known.

Hazardous decomposition products: Combustion or thermal decomposition will evolve toxic and irritant vapours .

Hazardous Polymerization: Will not occur.

Section 11 - Toxicological Information

Acute oral LD₅₀: > 2500 mg/kg in rats

Acute dermal LD₅₀: > 2000 mg/kg in rats

Acute inhalation LC₅₀ (4h): > 1.30 mg/l air

Acute skin irritation: Slight irritant

Acute eye irritation: Moderate irritant

Dermal sensitisation: Sensitiser

Section 12 - Ecological Information

Chlorothalonil:

Toxicity to soil dwelling organisms: Slightly toxic to earthworms *Eisenia foetida* (earthworm): LC₅₀ = 881 mg/kg, 14 d.

Toxicity to daphnia and other aquatic invertebrates: Very highly toxic to fish. *Oncorhynchus mykiss* (rainbow trout): LC₅₀ = 61 µg/L , 96 h (similar formulation)

Toxicity to algae : Highly toxic to aquatic invertebrates. *Daphnia magna* (Water flea): EC₅₀ = 180 µg/L, 48 h (similar formulation)

Toxicity to bees: Non toxic to bees: Oral LD₅₀ > 200 µg/bee, Contact LD₅₀ > 200 µg/bee

Azoxystrobin:

Toxicity to birds: (8-day dietary - Bobwhite Quail) LC₅₀/EC₅₀ > 5,200 ppm, (8-day dietary - Mallard Duck) LC₅₀/EC₅₀ > 5,200 ppm

Toxicity to fish: (Bluegill) LC₅₀/EC₅₀ 1.1 ppm, (Trout) LC₅₀/EC₅₀ 0.47 ppm

Toxicity to daphnia: LC₅₀/EC₅₀ 0.259 ppm.

Toxicity to bees: LC₅₀/EC₅₀ > 200 µg/bee

Section 13 - Disposal Considerations

Product Disposal: On site disposal of the concentrated product is not acceptable. Ideally, the product should be used for its intended purpose. If there is a need to dispose of the product, approach local authorities who hold periodic collections of unwanted chemicals.

Container Disposal: Do not use this container for any other purpose. Shake the last amount of product from the bag into application equipment. Thoroughly wash out the inner and add washings to the spray tank. Dispose of washed inner and cardboard box in landfill. Empty containers and product should not be burnt.

Section 14 - Transport Information

UN number	2902
Class	6.1
Packing group	II
Shipping name	PESTICIDE, LIQUID, TOXIC, N.O.S. (AZOXYSTROBIN AND CHLOROTHALONIL)

Section 15 - Regulatory Information

Symbol: Xn,

Risk phrases:

R₂₀ Harmful by inhalation.

R₃₇ Irritating to respiratory system

R₄₃ May cause sensitization by skin contact.

Safety phrases:

S1/2 Keep locked up and out of the reach of children.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S39 Wear eye / face protection.

S61 Avoid release to the environment. Refer to special instructions / safety data sheets.

Section 16 - Additional Information
