Active ingredient: Difenoconazole 15% + Propiconazole 15%

1. Chemical Product Identification

Common Name: Difenoconazole + Propiconazole 300g/L EC

Chemical Name:

Difenoconazole---cis,trans-3-chloro-4-[4-methyl-2-(1H-1,2,4-triazol-1-ylmethyl)-
1,3-dioxolan-2-yl]phenyl 4-chlorophenyl ether

Propiconazole---(±)1-[2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl-methyl
]1H-1,2,4-triazole

Chemical Name: Difenoconazole

Propiconazole

Molecular Formula: Difenoconazole $C_{19}H_{17}Cl_2N_3O_3$

Propiconazole $C_{15}H_{17}Cl_2N_3O_2$

2. Composition / Information on Ingredients

Composition	CAS No.	Content %
Difenoconazole	119446-68-3	15.0
Propiconazole	60207-90-1	15.0
Other ingredients		70.0

3. Hazards Identification

Primary routes of exposure: The substance can be absorbed into the body by ingestion.

Inhalation: Not irritating

Eye contact: Slightly irritating to eyes.

Skin contact: Not irritating

Delayed effects: Not found

4. First Aid Measures

- If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, after the first 5 minutes, then continue rinsing eye.
- If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
- If inhaled: Move person to fresh air.
- Note of physician (antidote): No specific antidote is available. Treat symptomatically.

5. Fire-Fighting Measures

Flammability: Combustible in case of fire.

Extinguishing media: Foam, CO₂, and Water.

Special fire fighting procedures: Wear approved self-contained breathing apparatus and full protective clothing. Contain water run-off.

6. Accidental Release Measures

- Personal protection: Appropriate protective equipment must be worn when handling a spill of this material. Remove all contaminated clothing promptly. Wash all exposed skin areas with soap and water immediately after exposure. Thoroughly launder clothing before reuse. Do not take clothing home to be laundered.
- Procedures: Keep spectators away. Avoid breathing vapor. Absorb spilled material with sawdust, clay, etc. and transfer to suitable containers for recovery or disposal. Keep dust to a minimum.
- CAUTION: Keep spills and cleaning runoff out of municipal sewers and open bodies of water.

7. Handling And Storage

Handling and storage precautions: Keep container tightly closed. Keep out of reach of children. Store under normal conditions and away direct sunlight.

8. Exposure Controls / Personal Protection

- Eye protection requirements: Goggles or safety glasses
- Skin protection requirements: Rubber or plastic gloves, long sleeves, pants or coveralls.
- Respiratory/ventilation requirements: Approved full facepiece, airline respirator in

the pressure demand mode with emergency escape provision. Air-purifying respirators should be equipped with approved cartridges for protection against pesticides.

- Exposure limits: Not established for product as whole.

9. Physical And Chemical Properties

Physical form: Liquid

Color: Pale yellow

Odor: Solvent odor

Boiling point: Not available

Specific gravity: About 0.950 (20°C)

Solubility: Form emulsion with water

Molecular formula: Difenconazole: $C_{19}H_{17}Cl_2N_3O_3$; Propiconazole: $C_{15}H_{17}Cl_2N_3O_2$

Molecular weight: Difeonconazole: 406.3; Propiconazole: 342.2

10. Stability And Reactivity

Stability: Stable under normal storage conditions.

Hazardous polymerization: ill not occur

Incompatibilities: Strong acidity and alkalinity.

Decomposition products: Oxides of nitrogen, oxides of carbon and hydrogen chloride.

11. Toxicological Information

Route(s) of entry: Inhalation, dermal, eye contact, ingestion

Oral LD50: > 2000 mg/kg (rats). Low toxicity.

Dermal LD50: for rats >2000, rabbits >2000 mg/kg. Low toxicity.

Inhalation LC50: (4 hr) for rats >2.0 mg/L. Low toxicity.

Effects to eyes: Irritating to eyes of rabbits.

Effects to skin: Not irritating to skin of rabbits.

12. Ecological Information

Difenoconazole:

Birds: Acute oral LD50 for mallard ducks >2150 mg/kg.

Fish: LC50 (96 h) for rainbow trout 0.8, bluegill sunfish 1.2 mg/l.

Not toxic to bees; LD50 (contact and oral) >100 μ g/bee.

Propiconazole:

Birds: Acute oral LD50 for Japanese quail 2223, bobwhite quail 2825, mallard ducks >2510,

Pekin ducks >6000 mg/kg.

Fish: LC50 (96 h) for carp 6.8, rainbow trout 5.3, golden orfe 5.1, spot 2.6 mg/l.

Not toxic to bees; LD50 (contact and oral) >100 μ g/bee.

According to above information, NEBULA 300 EC is practically non-toxic to birds and

moderately toxic to fish.

13. Disposal Considerations

For disposal, incinerate this material at a facility that complied with local, state and country regulations.

14. Transport Information

Transport

UN No.: 3082

15. Regulatory Information

Hazard Classification: Xn

Risk Phrases:

R 10 Flammable.

R 20/21 Harmful by inhalation and in contact with skin.

R 38 Irritating to skin.

Safety Phrases:

S 25 Avoid contact with eyes.

16. Other Information

All information and instructions provided in this Material Safety Data Sheet (MSDS) are based on the current state of scientific and technical knowledge at the date indicated on the present MSDS and are presented in good faith and believed to be correct. This information applies to the product as such. In case of new formulations or mixes, it is necessary to ascertain that a new danger will not appear. It is the responsibility of persons on receipt of this MSDS to ensure that the information contained herein is properly read and understood by all people who may use, handle, dispose or in any way come in contact with the product. If the recipient subsequently produce formulations containing this product, it is the recipients sole responsibility to ensure the transfer of all relevant information from this MSDS to their own MSDS.
