

Material Safety Data Sheet

Kasugamycin 4% SL

Section 1 - Chemical Product and Company Identification

Chemical Name: kasugamycin 4% SL

Company Identification:

Shaanxi Lvdun Biological Products Co.,Ltd.

Add: No.27,Yaoshan East Road, Pucheng County, Shaanxi Province, China.

Phone Number: 86-913-7237555

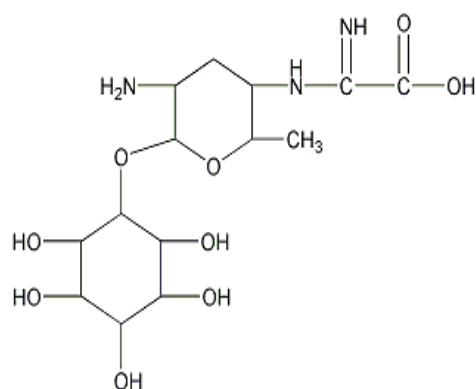

Fax Number: 86-913-7235000

Section 2 - Composition, Information on Ingredients

Components	CAS Number	(Content, %)
Kasugamycin	6980-18-3	4% Min
Other ingredients		96% Max

Structural formula:

Kasugamycin:

Molecular formula: C₁₄H₂₅N₃O₉

Molecular Weight: 343.2

IUPAC name:

[5-amino-2-methyl-6-(2,3,4,5,6-pentahydroxycyclohexyloxy)tetrahydropyran-3-yl]amino- α -iminoacetic acid

CAS name:

3-O-[2-amino-4-[(carboxyiminomethyl)amino]-2,3,4,6-tetradeoxy- α -D-arabino-hexopyranosyl]-D-chiro-inositol

Section 3 - Hazards Identification

Hazard classification:

Likely Routes of Exposure: Oral, skin contact and inhalation

Potential Health Hazard: May cause slightly eye irritation

Potential Environmental Hazard: N/A

Explosion hazard: No hazard.

Warning Statements:

Keep out of reach of children.

Section 4 - First Aid Measures

Skin Contact: Remove contaminated clothing and wash the affected area with water followed with soap and water.

Eye Contact: Rinse out with plenty of water with the eyelid held wide open for at least 15 minutes and seek medical attention.

Inhalation: Immediately remove from exposure to fresh air and seek medical attention if necessary.

Ingestion: If swallowed seek medical advice immediately and show the label if possible. Do not induce vomiting. Wash out mouth with water. Keep patient at rest and seek medical attention immediately.

Further Information: Note to medical personnel: There is no special antidote, treat according to symptom.

Section 5 - Fire Fighting Measures

Suitable extinguishing media: Water spray, carbon dioxide, foam or dry powder.

Special protective equipment for fire-fighting: Wear self contained breathing apparatus and protective clothing (chemical protection suit, boots and plastic or rubber gloves). Do not breathe fumes.

Toxic Gases Produced: carbon monoxide, carbon dioxide, nitrogen oxides.

Section 6 - Accidental Release Measures

Personal precautionary measures:

Ensure suitable personal protection during removal of spillages.

Environmental-protection measures:

Keep the area isolated and do not allow contamination to enter the sewerage system.

If the product has entered the sewerage system or contaminated a public place advise the appropriate authority.

Procedures for cleaning/absorption:

Contain/absorb the spillage with a suitable inert absorbent material which should then be transferred to secure containers and sent for disposal. Wash the spillage area with water. Washings must be prevented from entering surface water drains.

Section 7 - Handling and Storage

Handling: Keep product in original tightly closed container; do not get on skin, eyes or clothing; do not eat drink or smoke when handling; wash hands before eating drinking or smoking. Provide good ventilation of working area.

Storage: Store in a dry area in the original containers, access should only be for authorized persons. Keep out of reach of children. Keep away from food, drink and animal feeding stuffs. Protect from frost. Keep away from direct sunlight.

Section 8 - Exposure Controls, Personal Protection

Engineering measures to reduce exposure:

Ensure adequate ventilation especially in confined areas.

Threshold Limit Values (TLVs): N/A

Determination Method: HPLC

Personal protective equipment:

Respiratory protection: Wear appropriate respirator.

Eye protection: Chemical safety glasses or goggles. Have eye-washing facilities

readily available where eye contact can occur.

Hand protection: Wear chemical resistant gloves.

Industrial Hygiene:

Immediately change contaminated clothing, dispose of if decontamination is not feasible. Keep away from food, drink and animal feeding stuffs. Wash hands before breaks and immediately after handling the product. When using, do not eat, drink or smoke.

Section 9 - Physical and Chemical Properties

Appearance: Liquid

Color: Green

Odor: N/A

Melting Point/Melting point range: N/A

Flash Point: No flash point

Autoflammability: Not auto-flammable

Vapor Pressure: 7.2×10^{-4} mPa (20 °C)

pH: 3.0-5.0

Bulk density: 1.0160g/cm³

Section 10 - Stability and Reactivity

Stability: Stable at acid and neutral ambient conditions.

Conditions to avoid: Avoid strong alkaline pesticide.

Hazardous decomposition products: carbon monoxide, carbon dioxide, nitrogen oxide, nitrogen dioxide. If product is heated above decomposition temperature, toxic vapors will be released.

Section 11 - Toxicological Information

Acute Oral: LD₅₀ for male & female rats: >5000mg/kg

Acute dermal: LD₅₀ for male & female rats: >2000mg/kg

Acute dermal irritation: Non irritation to rabbit

Acute eye irritation: Slightly irritation to rabbit

Acute dermal sensitization: Not a sensitizer to White guinea pig

Acute inhalation: LC₅₀ for male & female rats: LC₅₀ (4 h) for rats >2000mg/m³.

Section 12 - Ecological Information

Effects on birds (bobwhite quail):LD₅₀>4000 mg/kg.bw (male&female)

Effects on fish (rainbow trout) : LC₅₀>100 mg/L (96h)

Effects on Alga (Selenastrum capricornutum) : EC₅₀=12 mg/L

Effects on honey bees (Apis mellifera L.) : LD50>100µg/bee(oral)

Effects on daphnia: EC₅₀=65 mg/L (48h)

Section 13 - Disposal Considerations

Waste from residues/unused products: In accordance with local and national regulations. Do not allow material to contaminate ground water system. Do not contaminate surface water.

Contaminated packaging: Wash out container thoroughly, empty washings into spray tank and dispose of safely.

Do not contaminate ponds, waterways or ditches with chemical or used container. Do not re-use empty containers. Burn empty bags or bury in a suitable location at a landfill.

Section 14 - Transport Information

UN proper shipping name:N/A

UN Number: N/A

Transport hazard class: N/A

Packaging group: N/A

Section 15 - Regulatory Information

This safety datasheet complies with the requirements of Regulation on the Safe Management of Hazardous Chemicals in China.

Section 16 - Additional Information

This MSDS completes technical use sheets but does not replace them. Information herein is based on our present knowledge concerning the product, at the edition date. It is honestly given. The attention of users is drawn to potential risks taken when the product is used for other uses than those for which it is made. The user has to know and comply with all regulations concerning its activity. It remains the user's own responsibility to make sure that the information is appropriate and complete for his special use of this product. The aim of all the regulations mentioned is to help the person concerned to comply with the rules which are his own responsibility. This listing cannot be considered as exhaustive. The person concerned has to make sure that he has no other obligations due to texts specific to particular applications.
