

MATERIAL SAFETY DATA SHEET

Pyraclostrobin 25% W/V EC

Section 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product Identifier

Product Name: Pyraclostrobin 25% W/V EC

Chemical Formula: C₁₉H₁₈ClN₃O₄

CAS No: 175013-18-0

Molecular weight: 387.8 g/mol

1.2 Relevant identified uses of the substance or mixture and uses

Laboratory chemicals, Manufacture of substances.

1.3 Details of the supplier of the safety data sheet

Company Name: Shangyu Nutrichem Co., Ltd.

Company Address: No. 9 Weijiu Rd., Hangzhou Bay Shangyu Economic and
Technological Development Area, Zhejiang 312369, P.R. China

Tel: +86-575-82738537

Fax: +86-575-82738537

1.4 Emergency telephone number

Opening hours: 24 hours *,

Emergency phone number: +86-575-82738537

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [EU-GHS/CLP]:

Skin irritation (Category 2), H315

Acute toxicity, Inhalation (Category 3), H331

For the full text of the H-Statements mentioned in this section, see Section 16.

2.2 Label elements

Labelling according Regulation (EC) No 1272/2008 [CLP]

Pictogram:

Signal word: Warning

Hazard statement(s):

H303 May be harmful if swallowed

H313 May be harmful in contact with skin

Precautionary statement(s):

P264: Wash hands thoroughly after handling.

P270: Do not eat, drink or smoke when using this product.

P330: Rinse mouth.

P312: Call a POISON CENTER or doctor/physician if you feel unwell.

P301 + P312: IF SWALLOWED: call a POISON CENTER or doctor/physician IF you feel unwell.

Supplemental Hazard: none

2.3 Other hazards - none

Section 3: Composition/inibrmatio» on ingredients

3.1 Substance

Component	CAS Number	Content
Pyraclostrobin	175013-18-0	25%
Others	--	75%

Acute Tox. Oral 5; Acute Tox. Dermal 5; H303; H313

For the full text of the H-Statements see Section 16.

Section 4: First aid measures

4.1 Description of first aid measures

Eyes: Flush eyes with water as a precaution.

Skin: Wash with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

Ingestion: Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Inhalation: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in labelling (see section 2.2) and/or in section 11.

4.3 Indication of any immediate medical attention and special treatment needed

No data available.

Section 5: Fire-fighting measures

5.1 Extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

7 / -;

5.2 Special hazards arising from the substance or mixture

Carbon oxides, Nitrogen oxides (NO_x), Hydrogen chloride gas.

5.3 Advice for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

5.4 Further information

No data available.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions:

Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Discharge into the environment must be avoided.

6.3 Methods and material for containment and cleaning up

Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

For disposal see section 13

Section 7: Handling and storage

7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. For precautions see section 2.2.

7.2 Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Recommended storage temperature 2 - 8 °C hygroscopic Store under inert gas. Light sensitive. Storage class (TRGS 510): Non-combustible, acute toxic Cat.3 / toxic hazardous materials or hazardous materials causing chronic effects.

7.3 Specific end uses

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

Section 8: Exposure controls/personal protection

8.1 Control parameters

Components with workplace control parameters

8.2 DNEL/PNEC values

Not available.

83 Exposure controls

Personal Protective Equipment

Eyes: 、 Face shield and safety glasses Use equipment for eye protection .tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Clothing: Complete suit protecting against chemicals, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respirators: Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance: dark yellow liquid.

Odor: faint odour, aromatic

Density: 1.00g/cm³ at 20 °C

pH: 6.4

Vapour pressure: 0.053 hPa

Flash point: 70°C

Boiling Point: 180°C

Freezing Point: 0°C

9.2 Other information

Section 10: Stability and reactivity

10.1 Reactivity

No data available

10.2 Chemical stability

Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

No hazardous reactions if stored and handled as prescribed/indicated.

10.4 Conditions to avoid

Avoid sources of ignition. Avoid electro-static discharge. Avoid direct sunlight.

10.5 Incompatible materials

Nitric Acid, Sulfuric acid, strong oxidizing agents.

10.6 Hazardous decomposition products

No hazardous decomposition products if stored and handled as prescribed/indicated., Prolonged thermal loading can result in products of degradation being given off. No hazardous decomposition products if stored and handled as prescribed/indicated.

Section 11: Toxicological information

11.1 Information on toxicological effects

Oral rat LD50: Male-880 mg/kg, Female-501 mg/kg; dermal rat LD50: >2000 mg/kg; skin irritation rabbit: mild-irritating; eye irritation rabbit: mild-irritating; sensitization: weak.

Section 12: Ecological information

Take care to prevent chemicals from entering the ground, water bodies, or drainage systems.

12.1 Toxicity

Acute oral toxicity for daphnia: 0.022 a.i.mg/L(48h-EC50)

Acute oral toxicity for quail: LD50> 500 a.i.mg/kg bw

Acute oral toxicity for honeybees: 48.518 a.i. µg/bee (48h-LC50)

Acute oral toxicity for zebra fish (96h): 0.044a.i.mg/L(96h-LC50)

12.2 Persistence and degradability

The methods for determining the biological degradability are not applicable to inorganic substances.

12.3 Bioaccumulative potential

No data available.

Section 13: Disposal considerations

13.1 Waste treatment methods

Offer surplus and non-recyclable solutions to a licensed disposal company.

Section 14: Transport information

UN number: 3082

Transport hazard class: 9

Packaging group: III

Section 15: Regulatory information

This safety datasheet complies with the requirements of Regulation (EC) No. 453/2010.

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

No data available.

15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

Section 16: Other information

This safety data sheet is prepared in accordance with Commission Regulation (EU) No 453/2010.

Full text of H-Statements referred to under sections 2 and 3.

H303	May be harmful if swallowed
H313	May be harmful in contact with skin
